My first draft as a husband and a father is coming soon and it is a big change for me. I am excited about all that life will bring, but I hope the past is forgiven by my new husband and that we can build a beautiful future together. I have met a ton of wonderful people on this site that inspire me to be a better person every day, and I am so grateful for the friendships we've established. Thank you for checking out my profile. Contact me on Twitter if you have any questions.Polymerase chain reaction (PCR) amplification of histones H3 and H4 and their use as species specific diagnostic markers of bovine, ovine, and porcine histones. Histones are highly conserved chromosomal proteins that can be used as markers for DNA detection and identification. We have developed a new technique to amplify histone H3 and H4 with histone-specific primers for the detection of small amounts of DNA for species specific identification.
